13 March 1959

MEMORANDUM FOR: Deputy Director (Plans)

SUBJECT: WS-117L Requirements Committee Meeting

1. The WS-117L Requirements Committee met on Thursday, 12 March 1959, at the invitation of Col. H. Macia USAF, AFM, to be briefed by the BOD Briefing Team, headed by Col. F. Oder USAF, on the status of the 117L Program including Sub-systems I, F, G, and H. At the conclusion of the briefing, Col. Macia informed the Army, Navy, CIA, and NSA representatives that another meeting would be held in about two weeks. At that time, the meeting would be open for questions and discussion of the service and agency equipment needs to properly handle the WS-117L products.

2. At the subject meeting, Major H. Wienberg, USAF/BOD, informed me that by separate correspondence I was being invited to the Ramo-Woolridge Plant in Denver, Colorado, on 25-26 March to attend a large open house conference on and exhibition of the 117L Sub-system I equipment which has been assembled. At my option, Major Wienberg tells me that I can bring three or four other CIA representatives along.

3. By copies of this memorandum to the DD/I and DAD/OSI, I would seek to determine the names of any of your personnel which you might care to nominate for the Denver trip.

ARTHUR C. LINDAHL  
Director,
